

Career development skills and pathways: towards more effective and impactful research

Hosted by the Harry Butler Institute, Murdoch University

Please join us for this exciting and engaging, FREE workshop, focussed on practical advice and skills to help you forge a career as an effective and impactful researcher.

Communicating your research 1. Writing papers (and getting them published...)

Dr. Tim Jennerjahn – Leibniz Center for Tropical Marine Ecology

Communicating your research 2. Negotiating the editorial minefield

Prof. Gretta Pecl – Editor in Chief, Reviews in Fish Biology and Fisheries

Prof. Mike Elliott – Editor, Estuarine Coastal and Shelf Science

Communicating your research 3. How scientists can use video

Dr. Joe Milton – Senior Media Officer, Australian Science Media Centre

Disseminating your research. Using social media to build your profile and impact

Dr. Joe Milton – Senior Media Officer, Australian Science Media Centre

Looking beyond your own research. How to be an effective reviewer

Prof. Mike Elliott – IECS, University of Hull; Editor, Estuarine Coastal and Shelf Science

Mapping your career pathway. Pathways and key skills for a successful career

Prof. Gretta Pecl – Director, Centre for Marine Socioecology, UTAS

Dr. Brett Molony – Principal Research Scientist, Division of Fisheries, DPIRD WA

A. Prof. Catriona Macleod – Deputy Centre Head – Fisheries and Aquaculture, UTAS

Dr. Luke Twomey – CEO, Western Australian Marine Science Institution

Prof. Simon McKirdy – Director, Harry Butler Institute, Murdoch University

Friday 7th September 2018

9.00am – 3.00 pm, with networking lunch

Maritime Museum, Fremantle

This is a FREE event for ECSA conference attendees and for students and researchers from WA universities, government departments, industry bodies etc.

Places are strictly limited. Please register in advance via email to:
